Re: EVA support for The Link Project

Dear Reese:

The East Village Association, Inc. (EVA) is the nonprofit organization that manages the East Village Business Improvement District, representing more than 700 members and about 13,000 residents.

On May 4, 2017 the EVA board voted to provide this support letter for The Link San Diego Project. The EVA Pre-Design committee reviewed this project and the committee recommended general support for the design of the Link Project. While the design of the project is supported, it should be acknowledged that EVA does not support the use of the building as permanent supportive housing.

If you have questions, please contact Sunny Lee, EVA Program Manager via email at SLee@EastVillageSanDiego.com or call 619.546.5636.

Sincerely,

A handwritten signature in cursive script that reads "David Hazan".

David Hazan, President
East Village Association, Inc.
